### Our News

Those last month we implemented the “First Charity Dinner” and “Charity Concert” to collect funds and made a banner to promote the Foundation.

We would like to thank Finn Elits, Jonathan Sauer and Vanessa Freeman for the work they have been doing in the projects and for the Foundation’s Friends Network during their volunteering year. We are really grateful for the enthusiasm, commitment and the love they expressed helping the boys, girls and teenagers. They will remain in our minds and hearts forever. We wish they’ll have a lot of success in their future!!

Dear Foundation Estrellas en la Calle Family, those last months we focused our work on the defense of homeless girls, boys, teenagers, youth and families (NNAJFSC: Niños, Niñas, Adolescentes Jovenes y Families en Situación de Calle). They are subjected to a very high level of violence from various State Institutions that do not realizes that this violence is making their situation even worst.

Here so, we tried to meet with those State authorities to aware them on the situation and stop those abuses. Unfortunately, we only had them stop for a while.

However, our team working in the Coyerá - Wiñana Project keeps on going daily in the streets with the NNAJFSC.

We also keep on working with Departmental, National and International Networks to share experience, news and above all to convey the voice of the people we are working with and who trust in the help we provide them to be heard and defend their rights.

We will finish the year with the last national meeting in November to work on topics such as “The Protocol for the Attention and Prevention for People Living on the Streets”.

We are willing to attend this meeting and we will keep you informed of the organization. We are really grateful for your interest and support that enable us to assist children, teenagers and families.

They need for a helping hand to assist them in the trials they have to go through.

Thanks to your support, we are able to accompany them and help them leaving the streets.

A fraternal embrace.

Víctor H. Arellano Soto  
**DIRECTOR**

The Coyera – Wiñana Project

**Estefany Simmons:**  
24 years old. We aware her about her obligations as mother. Currently, she is working selling food with her mother. She improved her personal image and she is working on her lifetime project.

**Henry Gutiérrez Mercado:**  
He have not been consuming drugs for 5 months, he is taking is responsibilities as a father and he is having couple counselling to improve his communication. Currently, he is emotionally stable and he is working on his anxiety to control his addiction.

**Isabel Susan Felipe:**  
22 years old. She is working in embroidery workshop and is studying by night. She is demonstrating her independence.

**Oscar Amos Tordoya**  
15 years old. He is from the Aroma San Martin Group. He is having Syphilis and have been taken to a medical center to establish the severity of the disease. We are assisting him and monitoring his medical treatment now he left the center.

The Fenix Project

In August, a mother supported by the Foundation passed away. Here so, we contributed to the medical and funerary costs payment and gave the family (sons participating to the projects) support in their grief.

We worked playfully on logical - mathematical intelligence (thinking logical following clues) and the language and verbal intelligence (respecting turns, reading, written comprehension) with riddles.

Teenagers participated to a workshop on puppets playing. They learned basic ways to use them and how to synchronize their voices with the puppets.

Children had manual activities. They made various kind of paper flowers rolling paper. This activity is useful to work on their fine motor skills and kinesthetic and corporal intelligence.

We had awareness activities on oral hygiene and had a control of children’s oral health of all children and teenagers at the Cerro Verde Hospital.

We hold interviews and psychological tests to find the strength and weaknesses of the people we are working with for the purpose of improving the attention we provide to those people
